

B-WM Adjustable Wall Mount for Sonos Beam

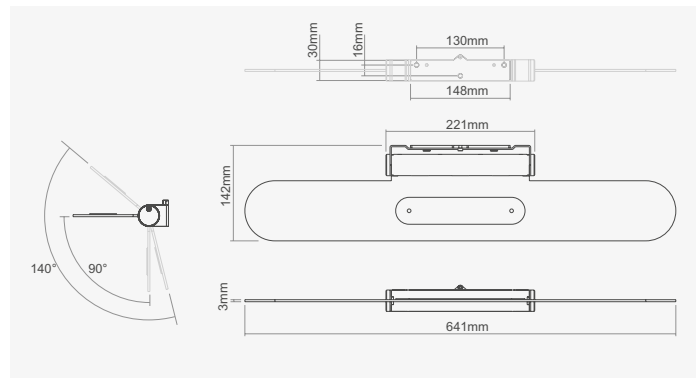

This premium mount – precision made in the UK – is ideal for secure wall-, ceiling- or under-cabinet-mounting of the Sonos Beam. Tilt functionality allows you to angle the sound exactly where you need it, too.

The Sonos Beam is compact enough to deliver incredible sound in many different rooms and positions; the Flexson Adjustable Wall Mount provides the functionality to maximise that flexibility. From bedroom to kitchen; living room to study, mount and tilt your Sonos Beam to suit.

Just like the Sonos Beam itself, the Flexson Adjustable Wall Mount comes in a choice of black or white finishes. The high-grade steel construction offers secure mounting in minutes; the easy-to-fit design comes with all the fixings you need.

- Unique clever design allows Sonos Beam to be positioned on a wall, ceiling or even under a kitchen cabinet.
- Bespoke design securely holds the Sonos Beam
- Ideal for wall, ceiling or under-cabinet mounting of Sonos Beam
- Allows 180° tilt (90° up, 90° down), so you can perfectly angle your speaker
- Can be inverted to securely hold the speaker upside down – so its controls are easily accessible if mounting higher up the wall
- Precision engineered. Quick and easy to fit
- Available in black or white to perfectly match the Sonos Beam
- High grade-steel construction
- Fixing hardware included for Brick/Masonry and Wood/Studwork
- Designed and manufactured in the UK
